1st Conference on Computational Sustainability

CompSust09

June 8–11, 2009
Cornell University, Ithaca, NY USA

www.computational-sustainability.org/compsust09

To participate: email comp_sust@cs.cornell.edu

Chairs: Jon Conrad, Evan Cooch, Carla Gomes, and David Shmoys

Organizing Committee: James Allen, Antonio Bento, Jon Conrad, Evan Cooch, Thomas Dietterich, Carla Gomes, John Guckenheimer, Ashish Sabharwal, Bart Selman, David Shmoys, and Mary Lou Zeeman

To participate: email comp_sust@cs.cornell.edu

Program: The conference focuses on computational methods for balancing environmental, economic, and societal needs for a sustainable future. The program includes talks, discussions, and poster sessions, and a workshop on Managing Uncertainty for Sustainable Resource Use. Participants include representatives from national and international research institutions and government agencies. For the list of invited speakers, participants, and details see www.computational-sustainability.org/compsust09

Local Arrangements: Megan McDonald, mcdonald@cs.cornell.edu

Limited travel support is available for PhD students and postdocs.
